Unlike some medical services, with behavioral health services a mental health provider often cannot form an estimate of what services are needed and what they will cost until after meeting with the patient with several times. Even then, the extent of the services the patient will need will be influenced by many factors. With that in mind, I will review your treatment plan and services needs with you throughout your treatment with me that may not be reflected in this estimate.

I am providing you with this good faith estimate based on the information I have available at this time and actual items, services, or charges may differ from this good faith estimate as treatment progresses.

Here is a chart of typical fees for specific services the practice provides that will be in effect for January 1, 2026 through December 31, 2026. Please note that these fees are the same for both in-office services and for telehealth services.

Together throughout treatment I will discuss how many sessions and the types of services that will be of the most benefit to you based on your diagnosis, your presenting concerns, and other relevant information that presents as we continue treatment together.

[For example, we anticipate meeting biweekly, therefore our best estimate for the total charge you will incur is \$_____, calculated as 26 sessions x \$XXX equals \$XXXX for the year]

This estimate is for services provided in the coming year. I will provide you an updated estimate when I determine it is relevant to do so. I will provide you a new estimate one year from now if you are continuing to participate in services here. You are welcome to ask questions about your services, their costs and this estimate.

By signing this document, you are indicating that you understand that I (Katharine Townsend, Ph.D.) am providing you an estimate of services with me for the coming year. You also understand that if you have insurance, by signing this document you have decided to utilize out-of-network services rather than utilize in-network services that may be less expensive. Finally, you understand it is your responsibility to send a superbill to my insurance carrier if you want to use any out-of-network benefits that may be included in your insurance plan.
